WELCOME MESSAGE

Dermatoscopy has gained popularity as a valuable diagnostic adjuvant in clinical dermatology. The science of Dermatoscopy allows clear visualisation of skin surface and subsurface structures that are not seen with unaided eyes. At present, it is the most essential that proper training and knowledge on 'how to use' Dermatoscope in clinical practice for both practitioners, teaching faculty and residents is indispensable. This event on 'International Symposium on Dermatoscopy' encompasses all aspects of Dermatoscopy to ensure that its participants get a glimpse of the subject and also empowers them to utilise the skill in day-to-day practice of dermatology.

HIGHLIGHTS

- **Talks on melanoma and future of Dermatoscopy by Trilokraj Tejasvi, the President of International Society of Teledermatology**
- **Enzo Errichetti, the most versatile dermatoscopist of the world in Inflammoscopy, is giving a lecture on Dermatoscopy of inflammatory conditions**
- **AI in Dermatoscopy**
- **Mucoscopy - Dermatoscopy of mucosal surfaces**
- **Thermography**
- **Dermatoscopy Quiz**
- **Certification by IDS**
